CF EVANS CONSTRUCTION

CFEvans.com

CF Evans is a nationally recognized leader in the multi-family housing construction industry. As it approached its 75th anniversary, the company sought a website with a contemporary aesthetic that would attract valuable clients and high-quality job applicants.

Building off only a provided sketch, Beam & Hinge revamped CF Evans' brand guidelines to provide a sleek and modern design. An interactive map and striking photography provide a platform to showcase the firm's full range of construction projects. A bolstered Careers section positions CF Evans as a contributing member of its home communities and the right-fit employer for bright, dedicated employees who uphold the company's values.

Celebrating
75+ Years

Our legacy spans over
quarters of a century,
building people and
communities around the
world. We are proud of our
past, more proud of our
present, and excited for the
opportunities ahead in the
future.

About CF Evans

Do you need to make a burn notification?
State law requires citizens to notify the South Carolina Forestry Commission before burning yard debris.

Submit Your Notification

PORTFOLIO

SOUTH CAROLINA FORESTRY COMMISSION

scfc.gov

The South Carolina Forestry Commission protects, promotes and enhances South Carolina's forests for the benefit of all.

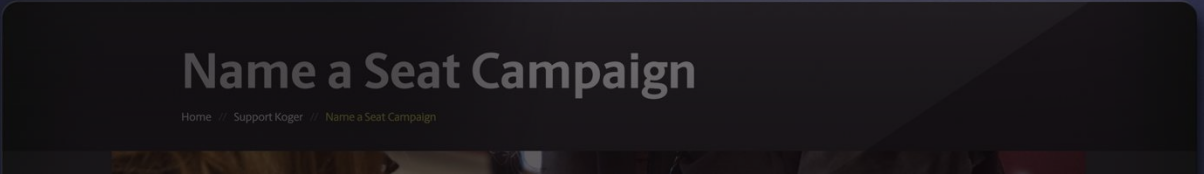

Beam & Hinge was charged with providing the Forestry Commission with a site that was modern, approachable, and chocked-full of calls to action. The new site makes it easy to find exactly the form, phone number, directions, or regulations a visitor seeks, and the design is fresh and welcoming (like the forest, itself!).

KOGER CENTER FOR THE ARTS

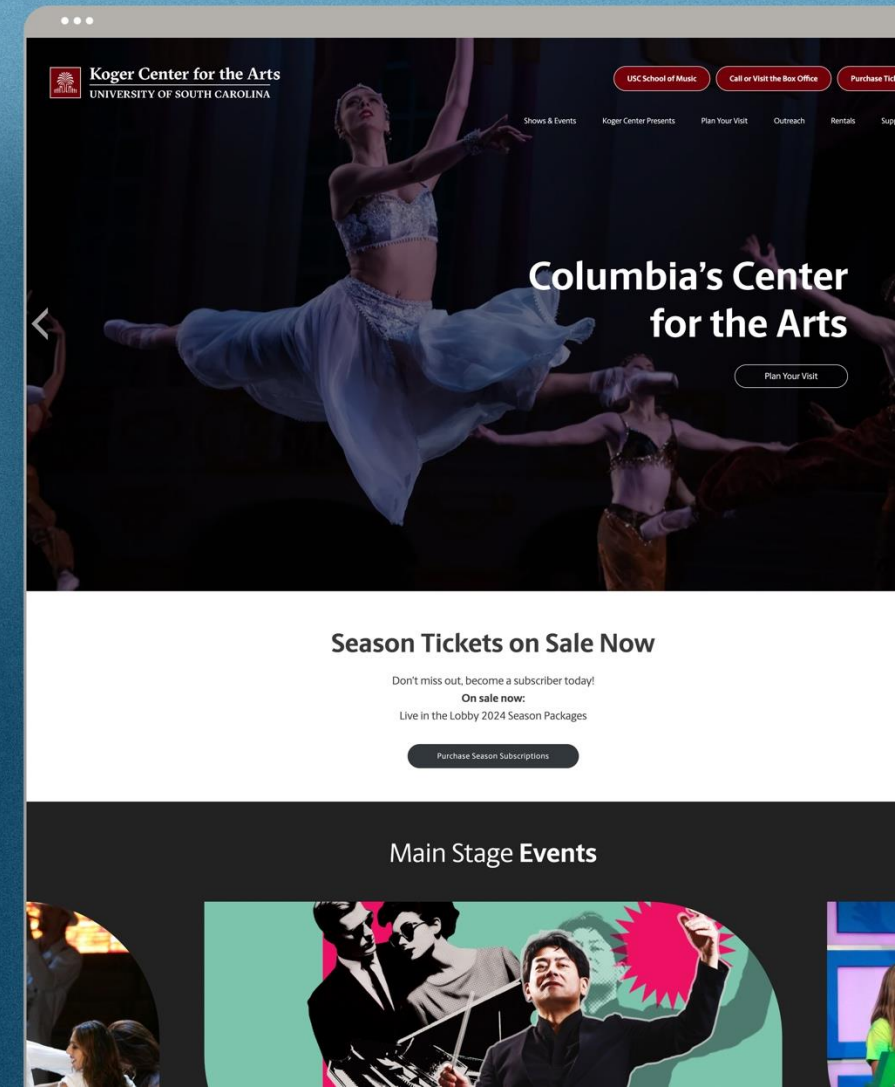

PORTFOLIO

KOGER CENTER FOR THE ARTS

kogercenterforthearts.com

Featuring University performances, national tours, and regional acts, the Koger Center for the Arts is Columbia's premier performing arts venue. Now in its 35th year, the organization has reinvigorated its focus on promoting excellence in and from the region, and on connecting with students and educators. The leadership was interested in re-introducing the organization to the community, and wanted to put forth, "cool aunt" vibes.

Beam & Hinge delivered a website that clearly directs potential audiences, renters, educators and donors into the correct sales funnels, and delivered a design that is contemporary and vibrant (like your cool aunt).

personalized financial strategy that's tailored to you and your ambitions.

PORTFOLIO

GAINPLAN

gainplanners.com

Gainplan is a boutique financial strategy firm dedicated to empowering clients with personalized solutions that align with their long-term goals. When designing their website, our team focused on creating a platform that is both visually appealing and highly functional, addressing the needs of two distinct audiences: individuals seeking personal wealth management and business owners looking for expert 401(k) plan management.

The Gainplan website seamlessly bridges the gap between these two groups by presenting tailored content and intuitive navigation paths. For individuals, the site emphasizes financial literacy, personalized planning, and strategies to achieve peace of mind in their financial journey. For business owners, it highlights Gainplan's expertise in managing employee retirement plans, ensuring compliance, and maximizing value for both employers and employees.

PORTFOLIO

KRJ CONSULTING

krjconsulting.com

KRJ Consulting transforms challenges into opportunities, delivering tailored solutions that empower people, streamline processes, and drive growth.

After a decade of its own rapid growth and success, KRJ found itself with an outdated website that failed to highlight its accomplishments, expertise, and offerings. Their new site clarifies their offerings for both the public and private sectors, gives them a platform for sharing KRJ-created tools and resources, and serves as a launchpad for a new online educational platform. The site's design, featuring a gradient of blue to gold, is based on KRJ's theory of Synergy in the workplace.

PORTFOLIO

BELSER LAW FIRM

belserpa.com

Belser Law firm is a fourth-generation-led firm offering legal expertise in complex civil litigation, estates and probate, business law, and land use & property law.

At a point of transition in generational leadership, the firm wanted to put forth a welcoming image and focus attention on the strengths of the organization. Through a series of workshops and aesthetic reviews, we delivered a visual brand that represents the firm's approachability, determination and can-do attitude. Based on SEO research, we recommended a list of blog topics for the firm's knowledgeable attorneys to address; and reviewed each blog entry for opportunities to insert popular search terms. We also directed a photo shoot to gather personality photos and authentic location images that highlight the firm's people and its dedication to its home region.
